To Whomsoever it may concern

IMPLEMENTATION OF MICROSOFT DYNAMICS 365 BUSINESS CENTRAL SOLUTION
BY WINSPIRE SOLUTIONS PTE LTD

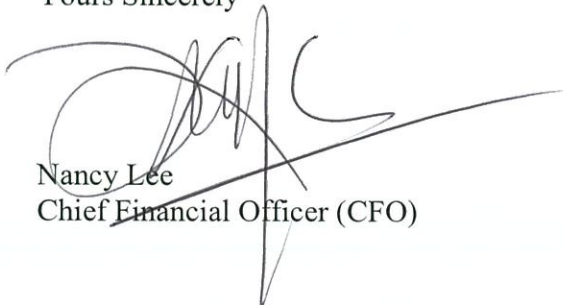

Multi Ways Equipment Pte Ltd's key industries are in infrastructure and building construction, mining, oil and gas and marine industries. Our main business is to lease and supply the heavy industrial machinery and equipment.

The ERP solution which we needed to implement had to be robust and be able to support our Industry specific requirements. It needed to support our growing business and provide a decision-making tool to help us improve our operational efficiency and management decision making. After many months of evaluating different Solutions and Vendors, we selected Microsoft Dynamics 365 Business central and Winspire Solutions Pte Ltd as our Implementation partner for the same.

We would like to thank Winspire solutions Team for the excellent Commitment, Co-operation and Professional handling of the project. They have done an excellent job. I would not hesitate to act as a reference point for Winspire solutions.

I am contactable on +65 6287 5252 or Nancy@multiways.com.sg if you need more information.

Yours Sincerely

Nancy Lee
Chief Financial Officer (CFO)
